The Accelerated Golf Method™

Our proven teaching system has worked for more than 100,000 graduates since 1978. If you're new to the game, we'll start you close to the hole, so you can develop control before adding power.

4:1 student-to-pro ratio.

To ensure that your game receives maximum attention, each class has no more than four students grouped according to playing ability with each PGA Professional.

Golf is played on a course, of course.

Hitting buckets of balls on the range or putting endlessly on the practice green is not our idea of on-course instruction. We teach you course management and club selection skills on the course, not near it.

Press play. Rewind. Play better.

In the hands of our professional analysts, video is a powerful tool to slow your swing, isolate your technique and help improve results.

Experience. The difference.

PGA Professional Jay Morelli has directed The Original Golf School since its 1978 inception. Jay and colleague Sue Newell were voted Vermont's Best Teachers in 2019/20 by Golf Digest. PGA Professional, and Maryland program director, Bob Affelder has taught thousands of students since joining The Original Golf School in 1987.
